FOREMAN TRAINING AND FACTORY MANAGEMENT (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Foreman Training and Factory Management This material is prepared in answer to a demand for a short course of lessons in foreman training. Experience in attempting to concentrate a series of eighty-five lessons into an evening course during the limited time the students were able to attend, convinced the author of the need for a shorter course. These topics, in mimeographed form, were used and continually revised during the training of seven different groups. No claim is made for having presented new ideas. Superintendents and managers who have shared this training with their foremen have been unanimous in reporting that the changes in their factory practices resulting from this course, represent merely old and proven business principles. Several excellent texts have been used by the author during his experience in foreman training, each of which has contributed in part, toward he preparation of this material. Limited space does not permit mention of the names of the many foremen, superintendents and managers who have contributed useful material. Special acknowledgement is made to the following persons: Mr. John Purcell, Assistant to Vice-President, Santa Fe Railway System, for helpful suggestions on apprentice training and factory management; Mr. N. E. Hildreth, Works Manager, Witte Engine Co., Kansas City, Mo., for suggestions in the organization of instruction; Miss Alice M. Loomis, Assistant State Supervisor of Trade and Industrial Education for Women s Trades in Nebraska, for assistance in the preparation of material; Wm. DeBaufre, Professor of Mechanical Engineering, University of Nebraska, for helpful criticism of the topics.
